Hisense

PureShine Series of Hisense

Brightens your home from kitchen

A story of PureShine Series

Seri Hisense PureShine adalah koleksi lemari es berteknologi canggih yang trendi, desainnya sangat berbeda dari lemari es biasa dengan kombinasi warna yang indah yang bertujuan untuk menginspirasi ekspresi kreatif di rumah. Koleksi lemari es baru ini dengan warna tegas dan unik, menyatu sempurna dengan variasi furniture sekitar.

Fokus pada ekspresi yang estetik, Koleksi Hisense PureShine mengadopsi desain pintu kaca premium dan kombinasi warna yang kreatif. Kulkas seri baru ini sederhana namun estetik, menyatukan peralatan melalui kemewahan dan sentuhan ciri khusus dapur sehari-hari.

Colour Inspiration

Beach Scene, ca. 1865, James Hamilton

James Hamilton terkenal karena kemampuan melukis ekspresionis. "Pemandangan pantai" yang dilukis di Jersey Shore, hadir sebagai mahakarya abadi. Kisah dan makna dibalik lukisan tersebut menggambarkan para pelaut yang tiba di pantai Amerika untuk memulai awal yang baru. Hamilton memilih warna kuning krem untuk mewakili kehangatan dan peluang. Gaun berwarna putih kontras, menonjol di tengah lukisan, menghadirkan secerca harapan di negeri baru.

Warna Khaki memiliki gabungan yang kuat antara kenyamanan dan keterbukaan serta kedamaian, yang merupakan desain sempurna untuk dapur klasik modern.

The House amongst the Roses, ca. 1925, Claude Monet

Claude Monet adalah pendiri aliran lukisan impresionis yang dikenal sebagai pelopor utama modernisme, terutama dalam upayanya melukis alam sesuai persepsinya. Lukisan ini menggambarkan bagian depan rumah seniman di Giverny dilihat dari taman. Lukisan ini memiliki ciri hasil akhir yang lebih teliti, sementara warnanya lebih bebas.

Lemari Es mengadopsi warna dari lukisan, warna merah muda terang, Biru, Biru Langit yang akan membuat dapur Anda lebih berwarna.

PureShine Series

PureShine Series FOUR DOOR REFRIGERATOR

Hisense PureShine Series merupakan koleksi lemari es trendi berteknologi canggih dengan kombinasi warna desain stylish untuk menginspirasi kreativitas di rumah.

Scan QR for more videos

TRIPLE ZONE

One fridge, three compartments

Tiga kompartmen berbeda dengan suhu fleksibel - kulkas, pembeku dan bagian My Fresh Choice yang dapat dikontrol tiap bagian. Anda dapat mengatur kulkas dan pembeku ke suhu apapun yang Anda inginkan.

Fridge
2 _ 8°C

Freezer
-14 _ -24°C

My Fresh Choice
-18 _ 5°C

METAL-TECH COOLING

Cool air in every corner

Dinding belakang lemari es dilapisi dengan baja tahan karat, yang memastikan udara sejuk terdistribusi secara merata dari dalam ke luar. Kombinasi teknologi canggih ini memastikan tingkat suhu dan kelembapan ideal setiap saat.

LARGE CAPACITY

Store and get more

Hadir dengan kapasitas besar, isi lemari es Anda dengan segala jenis makanan. Memiliki empat pintu yang dapat terbuka lebar, Anda dapat melihat semuanya dengan ringkas.

MULTI DOOR BALCONY

Made for tall and large bottles

Lebih banyak ruang untuk penyimpanan minuman kemasan, botol besar dan barang lainnya.

METAL GLIDE DRAWER

Easy access to your frozen goods

Kulkas Hisense dengan laci logam yang tahan lama memungkinkan Anda untuk menyimpan makanan beku berukuran besar dengan aman dan mudah, hadirkan pengalaman membuka dan menutup lemari es yang lancar.

SOFT LED LIGHTING

For both fridge & freezer

Lebih terang dan lebih efisien dibandingkan lampu pijar lemari es standar, pencahayaan LED memungkinkan Anda melihat isi lemari es dengan lebih jelas, sekaligus menghemat energi.

* Hanya model tertentu

CANTILEVER SHELVES

Flexible storage

Anda dapat menyesuaikan bagian dalam kulkas sesuai dengan kebutuhan. Botol besar, stoples, atau kue berukuran tinggi mampu muat dengan sempurna.

INVERTER PRO

Stable and energy saving

Lebih hemat energi dan bekerja lebih tenang, sekaligus memperpanjang masa pakai lemari es Anda.

PRECISE TEMP CONTROL

Maximum energy efficiency

Lima Sensor Suhu Digital yang sangat efektif terpasang di dalam kulkas (seperti yang ditunjukkan pada titik biru), dirancang untuk menyesuaikan tingkat pendinginan kulkas secara optimal.

MY FRESH CHOICE

Storage on demand

My Fresh Choice Zone dapat dengan mudah diubah dari pengaturan lemari es dan freezer lewat pilihan pengaturan suhu -18°C hingga 5°C. Ciptakan lingkungan suhu yang sempurna sesuai dengan keinginan Anda untuk kesegaran dan kualitas makanan lebih awet dan efisien.

Fridge
5°C

Chilled
0°C

Frozen
-18°C

PureShine Series SIDE BY SIDE REFRIGERATOR

Lemari es Side-by-Side ini menghadirkan desain simpel namun elegan, menyatukan peralatan dapur lewat kesan mewah dan sentuhan orisinal sehari-hari

Scan QR for more videos

TOTAL NO FROST

Never manually defrost again

Lebih canggih dari teknologi bebas bunga es biasa, Teknologi Total Tanpa Bunga Es yang inovatif dari Hisense memungkinkan sirkulasi udara dingin secara merata ke seluruh freezer, mencegah penumpukan bunga es, dan menghilangkan kebutuhan untuk mencairkan kembali bunga es secara manual.

DEODORIZING FILTER

Say hello to fresh air

Kulkas dan Freezer keduanya melembapkan, antibakteri, menghilangkan bau, menghilangkan vinil 4 in 1, dan memperpanjang umur simpan makanan. Tingkat antibakteri dapat mencapai di atas 99,99%, menyediakan makanan sehat untuk seluruh keluarga.

ELECTRONIC TOUCH CONTROL

Simple and precise control

Kendalikan sepenuhnya fitur lemari es Anda dengan panel kontrol sentuh LED yang jelas, mudah dijangkau dan digunakan. Anda dapat menyesuaikan suhu dengan tepat dan memilih semua fitur tambahan yang ditawarkan lemari es Hisense.

SOFT LED LIGHTING

Brighter and more efficient

Lebih terang dan efisien dibandingkan dengan pencahayaan lemari es standar, cahaya LED menerangi isi kulkas Anda namun tetap lembut di mata dan yang terpenting, menghemat energi lebih banyak.

DUAL-TECH COOLING

One fridge, double cooling

Sistem Dual-Tech Cooling pada kulkas dan pembeku menjaga kelembapan dan suhu ideal di setiap kompartemen, mencegah makanan mengering dan terkontaminasi oleh bau lain.

TWIN-SPACE CCA ANTI BACTERIA· PURIFY

FOOD ORGANIZED

Double storage, endless convenience

Desain laci lebar, tidak hanya memenuhi kapasitas penyimpanan, tetapi juga membantu Anda menyimpan dengan rapi. Melalui laci tembus pandang, penyimpanan ini membantu Anda mempersingkat waktu dalam mencari makanan favorit.

CHROME WINE RACK (SELECTED MODELS)

Keep your bottles organized and safe

Tempat stylish untuk botol wine dan minuman ringan yang membuat lega ruang di pintu kulkas Anda dan mencegah botol menggeling. Selain itu, lapisan krom berkualitas tinggi membuat rak ini sangat tahan lama dan mudah dibersihkan.

LARGE CAPACITY

Bigger than usual

Barang belanjaan dengan bentuk tinggi seperti minuman kemasan atau botol coke dua lapis bisa diletakkan di rak pintu. Dapat memenuhi semua permintaan Anda untuk penyimpanan botol.

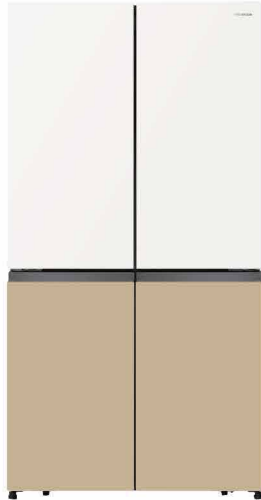

MULTI AIR FLOW

Envelop your food in freshness

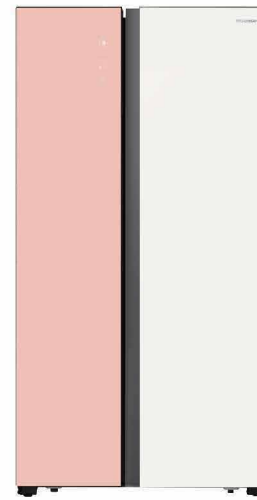

Berkat pemerataan udara dingin yang dicapai oleh sistem Multi-Air Flow yang cerdas, suhu optimal dapat bertahan secara konsisten di seluruh lemari es Anda. Membantu menjaga makanan tetap dingin dengan sempurna dimanapun itu ditempatkan.

Frameless Glass Design

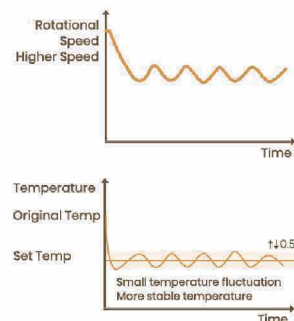

INVERTER PRO

Energy-Efficient, Fresh-Keeping & Low Noise

Melalui kontrol cerdas vector inverter, kecepatan kompresor diatur, penghematan energi yang komprehensif diterapkan, menjamin kesegaran yang tahan lama, masa pakai yang lebih lama, dan tingkat kebisingan yang rendah.

TWIN-SPACE CCA ANTI BACTERIA· PURIFY

REMOVABLE TWIST ICE MAKER

Ice with a twist

Berkat alat pembuat es putar yang optimal, cukup putar kenopnya, es batu akan jatuh ke nampan tanpa menempel satu sama lain.

EASY APPROACH PANTRY

Easy access to big items

Memudahkan Anda untuk mengakses semuanya. Cepat dan nyaman.

TOTAL NO FROST

Never manually defrost again

Dengan teknologi Total No Frost, bunga es tidak akan menumpuk di dalam kulkas, sehingga pencairan bunga es tidak perlu dilakukan lagi. Makanan anda juga akan tetap segar dan bergizi lebih lama.

FOUR DOOR REFRIGERATOR

ULTRA THIN DESIGN

636 ultra-thin body

427L kulkas bervolume besar mencakup area kecil, sedangkan desain tipis sangat cocok untuk ruang dapur. Desainnya fokus pada konsep dapur modern.

PREMIUM GLASS DESIGN

BLACK GLASS DESIGN

Lapisan kaca hitam meningkatkan kecanggihan dapur Anda.

SUPER-FREEZE

Fast Cooling and Freezing on Demand

Super Freezer dapat membuat freezer dengan cepat mencapai suhu terendah -24°C , yang dapat disebut suhu pengawetan koagulasi, makanan dalam waktu singkat melalui $-1\sim-5^{\circ}\text{C}$ zona pembentukan kristal es.

VARIABLE STORAGE SPACE

Third Grade Variable Temperature Space

$3-5^{\circ}\text{C}$ Cocok untuk menyimpan buah dan sayur, minuman dll.
 $1-2^{\circ}\text{C}$ Cocok untuk daging segar dan makanan laut dalam 1-2 hari, ASI dalam 7-8 hari.
 $0^{\circ}\text{C}, 2-3^{\circ}\text{C}$ lebih rendah dari freezer kulkas biasa, sangat cocok untuk minuman dingin.

INVERTER PRO

Technology Keeps Fresh

Dengan mengontrol arah gaya penggerak kompresor untuk menjaga konsistensi 100%, penghematan energi yang komprehensif, untuk mencapai efek terbaik dari penggunaan yang tahan lama, umur yang sangat panjang, pengurangan kebisingan dan senyap.

90° DOOR DESIGN

Slot in anywhere

Desain Pintu 90° Hisense memberikan akses penuh ke isi laci, karena laci dapat dibuka sepenuhnya pada posisi ini. Fitur ini ideal untuk dapur berukuran terbatas dimana lemari es diletakkan di sudut, di samping dinding, di dekat pintu, atau peralatan lainnya.

DISTINCTIVE EXTERIOR DESIGN

Recessed Handle

Dimaksudkan agar sesuai dengan desain dapur yang ada.

Mirror Finish Trim

Proses sablon kaca kelas atas untuk tampilan yang lebih gaya dan menarik.

Frameless Glass Design

Bergaya dan estetik, memberikan kulkas tampilan lebih bersih dan minimalis.

FRESH ZONE

Store at the right environment.

Laci khusus di bagian bawah lemari es 0° Cooling Plus ini merupakan zona terpisah dengan suhu sekitar dan pengatur kelembapan yang ideal. Ikan dan daging yang dikonsumsi dalam sehari kini dapat disimpan dengan aman di laci ini.

ALL ZONE ACTIVE HYGINE

Efficient Ion Sterilization

Di kompartemen pendingin dan freezer. Pembersih logam dan minyak atsiri tumbuhan digabungkan untuk membuat modul katalis, yang ditempatkan di saluran udara lemari es. Saat udara bersirkulasi, modul katalis ini menangkap dan memecah mikroorganisme dan molekul bau, sehingga secara efektif menghambat pertumbuhan bakteri dan menghilangkan bau.

SINGLE DOOR REFRIGERATOR & MINI BAR

Performa andal memberikan pengalaman sejuk dan menyenangkan bertahun-tahun.

YOUNG DESIGN

Explore the beauty of liberty, artsy in chic.

Mengikuti tren dengan daya tarik yang menakjubkan dari karya besar, kami memadukan kurva ke dalam desain lemari es kami. Desain pintu melengkung pada unit ini memberikan tampilan yang stylish dan elegan

SEMI-AUTO DEFROST

Defrost with a Push Button

Mencairkan bunga es di kompartmen sama mudahnya hanya dengan menekan tombol sistem pencairan semi-otomatis.

REVERSIBLE DOOR

Reversible door

Pintu yang dapat dibuka dari segala arah. Memungkinkan Anda membuka dari kanan atau kiri sesuai dengan kebutuhan.

XXL DOOR BALCONY

Bigger than usual

Barang belanjaan dengan bentuk tinggi seperti minuman kemasan atau botol coke dua lapis bisa diletakkan di rak pintu. Dapat memenuhi semua permintaan Anda untuk penyimpanan botol.

METAL BACK

Cover and Protect

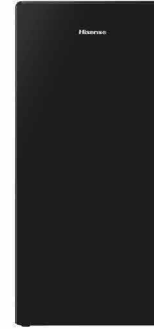

Kulkas ini dibuat dengan bagian belakang logam yang menutupi dan melindungi semua elemen internal kulkas. Bagian belakang berfungsi sebagai aksesoris visual membuat seluruh bodi tampak kokoh dan ramping, sekaligus mengurangi kemungkinan terjadinya kecelakaan terkait kebakaran.

ANTI-BACTERIA DOOR SEAL

Defend Health Defend Freshness

Antibakteri yang efektif menjaga makanan tetap segar di lemari es. Bangun garis pertahanan yang tak tertembus untuk lemari es Anda.
